Titanium Brushed

Natural finish is a living grade with an aluminium surface appearance where the colour nuance and surface variations may be visible

- Bare material may slightly vary in colour and surface
- Final coated product can slightly vary from samples
- Order projects in one batch to minimize color differences
- Limitations regarding the end applications are defined in the warranty conditions. Please consult our sales office

## ANY COLOUR YOU WANT

- The colour chart present preformulated colours with different finishes, surface, textures, iridescent effects and gloss levels.
- The paint systems and the coil coating technology allow also to apply in a wide selection of RAL, NCS, BS and DB colours.
- Our colour Lab is able to develop any custom colours for your projects. Please contact our office for more details about the different possibilities.

With LUMIFLON™ FEVE Fluoropolymer paint system.

## NOTE:

- The minimum quantity for all colours is 300 m<sup>2</sup> per order and per standard width, 500 m<sup>2</sup> for widths >1,575 mm
- Special colours are also possible. The minimum quantity is 300 m<sup>2</sup> for standard panel width and 500 m<sup>2</sup> for width >1,575 mm.
- Colour Chips may slightly differ from actual products due to printing. Match the colour with a metal colour sample.

- Colours may slightly vary between production batches. To ensure the colour consistency, we recommend placing total requirement in one order.
- Should you use material of the same colour from different orders or production batches in one project, please make sure to consult our sales office in advance.
